<b>Course aims &amp; objectives</b>		
<p>The aim of the course is to introduce ways in which we can reduce levels of stress and anxiety in our lives through creativity.</p> <p>When our bodies are stressed, our cortisol levels are raised which in turn has a negative impact on our overall health.</p> <p>Students will share their learning with other class members and will review each other's outcomes as a group to learn different techniques and processes.</p> <p>The objective is not to create an artistic masterpiece at the end of each session, but rather - what we produce will be the outcome of a creative journey. (Although, often things produced in this mindfulness state can be beautiful and expressive, as they are a way of releasing what is bottled up inside!)</p>
